MTD General Ledger Detail Report – July, August, September 2018
Fund Summary Report – July, August, September 2018
FY 2018-19 Financial Profile – July, August, September 2018
BM Weaver reported that with approximately 25% of the fiscal year elapsed, expenses are at 27.78%. Revenue is at 5.51% as renewals are just started coming in. A more accurate account of revenue will be available at the January meeting once the majority of the renewals have been received. The Cash Fund was at $66,790 at the end of September which is almost $2,600 lower than last year. Staff will continue to monitor and advise the members if a fee adjustment is warranted.

Svingen questioned how staff audits organizations as to whether or not they require a certificate of authorization. There is currently no process in place to do this. Discussion was held as to how to notify all current licensees regarding the requirement and ensure that all organizations have a certificate if applicable. With the ability to use MailChimp, an email could be sent to all licensees outlining the requirement and request a response as whether or not their organization currently holds a certificate.

AA Lais informed the members as to the process the Board of Engineers and Architects currently use
during the license application process. The members requested AA Lais to come up with a proposal for contacting current licensees and a process to be used during the license application process.
